New York "Bagman" Pleads Guilty in Court

Arthur A. McLean, late treasurer of the Democratic state committee of New York and close friend of Charles F. Murphy, boss of Tammany and till recently Democratic leader in the state, has pleaded guilty in court to the charge of receiving campaign contributions from contractors on state work. As treasurer of the committee he received contributions from companies engaged on construction work for the state in violation of an act passed a few years ago. This was the first definite result of an investigation into grafting in connection with contractors on state roads and the Erie canal. Other men have been

indicted and will be tried later. Since District Attorney Whitman, who prosecuted the case, be-lieved that McLean had no criminal intent, but merely followed a long-established policy of his committee, he consented to a suspen-sion of sentence rather than fine

# TWO AND HALF INCHES STORM

Splendid Rain Throughout County an Assurance of Good Crops

The storm that ended yesterday brought to Santa Ana a rainfall of 2.42 in.ches. On the San Joaquin ranch and throughout the foothills region the fall was heavier than it was here. The fall for the twentyfour hours ending yesterday morning was .47 inches in Santa Ana and .85 of an inch at the San Joaquin

It was a splendid rain, and it came in a manner that made it of the greatest usefulness. It not only came at the right time of year, but it came slowly so that it sank into the ground to the greatest advantage.
Grain and beet growers are highly pleased, and bean growers are in the same state of jubilation. With the rains that are expected later in the season excellent crops of grain, beets and beans are assured.

According to S. Hill & Son's gauge the fall by days for the recent storm was: Jan. 15, 1.45 in.; Jan. 16, .46 in.; Jan. 17, .47 in.; Jan. 19, .04 in. The season's rainfall is now 5.30 in. Last year at this time the season's record was 2.48 in

# PANAMA ZONE TO

Goethals to Be Named Governor Under Adamson Act-Tolls Question Reopened

WASHINGTON, Jan. 13.—Within a few days, probably this week, President Wilson will issue a proclamation changing the present military form of government in the Panama canal zone to a civil government as provided in the Adamson act. At the same time, he is expected to ele-vate Colonel George W. Goethals, engineer in chief of the Panama canal, to be governor of the canal zone.

Making operative the Adamson act, it is expected, will reopen the Anglo-American controversy regarding the exemtpion of American ships engag-ed in coastwise trade from the Pana-

Tolls Question Is Issue According to the opinion of law-yers in the administration, it will be impossible to make a part of the law operative, that part relative to the form of government of the canal zone —and not make operative that part dealing with canal tolls. The present status of the controversy regarding the tolls question is this:

The state department has England's last word in protest of the law. This last word was a rebuttal of the argument for exempting American vessels submitted by Secretary of State Knox in 1912, and was pre-pared by Sir Edward Grey, the British foreign minister.

Matter Long Unsettled Owing to the great rush of work in the closing days of the Taft administration, Mr. Knox did not find time to make a reply to the Grey rebuttal. Also, both President Taft and Secretary Knox had high hopes, particularly if the Republican party was successful at the polls, to see the present law amended so as not to exempt American ships engaged in coastwise trade from the payment of canal

When President Wilson took up the duties of the office of President, he had before him too many domestic questions which he regarded as more important at the time than any of the foreign questions. He promised however, that the controversy would be taken up and he hoped disposed of in a friendly manner. It may be a couple of months before the matter will be thoroughly gone into.

Commissioner Darlington Says 1914 Outlook Good—75 Miles Work Soon Under Way

Los Angeles Examiner: With the acceptance of \$400,000 of the State Highway bonds by San Diego county several days ago and the advertising for bids on about 75 miles of the highway in other counties, State Highway Commissioner Darlington stated that the work upon the great system of roads had started propitiously for the new year and by the beginning of 1915 a major portion of them would be completed.

Of the bonds subscribed by the southern county, \$115,000 of them will be used to complete eleven miles of coast highway between Los Angeles and San Diego. This amount will be taken up at once. The balance, which will be taken up when needed, will be used to construct the highway between San Diego and El-

Bids have been advertised for the construction of two sections of the eight miles of the Rincon highway between Los Angeles and Santa Barbara. The remaining two sections will be placed open for bidding in the near future, stated the commissioner. The construction of the Rincon highway is one of the most import ant portions of the highway system. When completed it will cut out the dangerous Casitas Pass which annually takes its toll of lives upon its steep

and treacherous curves.

There will also be constructed on this highway seven sea walls and nine grade crossings will be eliminated. Commissioner Darlington stated that his engineers had reported that the mile and a half causeway of trestle work that had been constructed along the beach about a year ago had weathered the recent storm without being damaged. It is the plan to allow this structure, which is of wood, to stand for some time and to surface it with asphalt.

Work on other sections of the highways in the various counties, stated the commissioner, is progressing favorably. There is a greater demand for the bonds with the coming of the new year, stated the commissioner, and he was optimistic concerning the outlook.

The following are the counties in which road construction has been ad-

Eldorado county, 6.5 miles; Tuolumne county, 10.8 miles; Tulare county, 5.3 miles; Kern county, 19 miles; San Bernardino county, 1.7 miles; Ventura county, 7.7 miles; San Luis Obispo county, 19 miles, and Santa Cruz county, 5.7 miles.

Still, every type of character has its own failings. It is the fault of tailors as a class that the trade tends to deown failings. It is the fault of tailors as a class that the trade tends to develop too much love for the ornate. That is good as far as the female sex is concerned, as it is their mission to be beautiful. But applied to men, whose mission it is to be strong and resourceful, it is not appropriate.

Perhaps this over emphasis on lecorative elements, which of course was once far more extreme, led to the lock from Main, with bath and use of phone. Modern in every respect. too late to prevent the destruction of the report.

About forty head of stock were in the barn, and the fire had so far progressed when it was discovered that only fourteen head were rescued.

It is estimated that 200 tons of hay were burned. Hay is worth \$15 a. ton. The horses and mules were worth probably \$4500. The barn was worth \$2,000. The loss was partially covered by insurance.
